Re: Maccabi Haifa FC corporation with "Preciate"

Dear sir or madam,

On behalf of Maccabi Haifa I would like to express our successful corporation with "Preciate" company in the field of fans entrance to our stadium under the COVID-19 regulations and restrictions.

1. In the last 12 months, we were forced to play our matches without Fans in the stadium due to the COVID-19 global and local crisis.
Since the local authorities in Israel have approved fans to enter the stadium under restrictions, we as the leading club in Israel was looking for suitable and comfortable solution for our fans to enter the stadium easily and smoothly, and in the same note to fulfil the restrictions.
2. our main concern was we will have long lines of fans in the entrance while security is checking the Green Pass and id of each and every one of the spectators.
3. We are pleased to say that the "Preciate" Pass has completely solved the problem. since March, we used this solution, and it was highly successful and professional prosses.
The installation of the service was straightforward and simple. We started using the Preciate Pass in stages as far the regulations allowed us.
First, only a few hundred people, and later up to 5000 and 10000 fans.
We soon found that it works smoothly and efficiently.
4. The prosses includes Fans that are going through the gates, few seconds of tablet face recognition and the green light is approving the fan to enter.
We had 30,000 fans at the stadium during May, with over half of them using the Preciate Pass to get in.

I can highly recommend the system and will be happy to assist further if necessary.
